- Dulek, R. E. and Fieder, J. S., Principles of Business Communication, Macmillan Publishing Company, London
- Kaul, A., Effective Business Communication, Prentice Hall, New Delhi
- Harper and Row, Webster's Guide to Effective Letter Writing, New York.

**Group-III MH (Elective papers for Honours course in 'Marketing Management' : Three papers of 100 Marks each = 300 Marks)**

**Paper MH 6: Cost Accounting and Statistics (100 Marks)**

*University Examination: 90 Marks*

*Internal Assessment: 10 Marks*

**Group A: Cost Accounting (50 Marks)**

*(Long, Semi-long and Short answer type questions should carry 45 marks preferably in the ratio of 3:4:2)*

1. **Introduction:** Concepts of Cost, Costing, Cost Accounting, Cost Centre, Cost Unit; Nature, Scope, Objectives and Functions of Cost Accounting; Comparison of Cost Accounting with Financial Accounting; Classification of Costs; Methods and Techniques of Costing; Need for Costing, Installation of a Costing System; Advantages and Limitations of Cost Accounting. (08 L)
2. **Elements of Cost:** Materials, Labour, Overheads; Preparation of Cost Sheet; Determining Selling Prices; Preparation of Quotations and Estimates. (12 L)
3. **Accounting for Materials:** Materials Purchase Procedure; Different Types of Stock Levels; Economic Order Quantity; Pricing of Material Issues; Perpetual Inventory System; ABC Analysis, Just-In-Time Approach. (12 L)

4. **Accounting for Labour:** Labour Cost Control Procedure; System of Wage Payment; Incentive Schemes; Idle Time and Overtime; Labour Turnover. (10 L)
5. **Accounting for Overhead:** Classification, Accounting and Control of Overheads; Allocation, Apportionment and Re-apportionment and Absorption of Overhead; Determination of Overhead Rates; Under- or Over-absorption and their treatment. (10 L)
6. **Methods of Costing:** Unit Costing, Job Costing, Batch Costing, Contract Costing. Process Costing (excluding Equivalent Production, Joint and By-Products). (12 L)

**Group B: Statistics (50 Marks)**

*(Long, Semi-long and Short answer type questions should carry 45 marks preferably in the ratio of 3:4:2)*

1. **Introduction:** Definition of Statistics, Importance and scope of Statistics, Types and Sources of Data, Limitation of Statistics. (03 Lectures)
2. **Analysis of Univariate Data:** Summarization of data, Charts, and measures of Dispersion, Moments, Different measures of Skewness and Kurtosis. (15 Lectures)
3. **Analysis of Bivariate Data:** Scattered Diagram – Simple Correlation, Linear Regression: Simple properties, Rank Correlation. (10 Lectures)

4. **Index Number:** Meaning and types of Index Number, Problems in constructing Index Number, Methods of Construction of Price and Quantity Indices, Test of Adequacy, Cost of living Index. (08 Lectures)
5. **Time Series Analysis:** Causes of variation in Time Series Data, Components of Time Series, Additive and Multiplicative Models, Determination of Trend by Semi-average, Moving average and Least square, linear – Computation of Seasonal Indices by Semi-average ratio to moving average, ratio to trend and link relative methods, Simple forecasting through Time Series Data. (12 Lectures)

***Suggested Readings:***

2. De, Sourendra Nath, Business Mathematics & Statistics (Vol. I & II), Chhaya Prakashani, Kolkata
3. Ghosh & Saha, Business Mathematics and Statistics (Vol. I & II), Central Book Agency Pvt. Ltd. Kolkata
4. Dhar, Ranjit, Business Mathematics and Statistics (Vol. I & II), Thee Dee Publications, Kolkata
5. Maity & Chakraborty, Business Mathematics and Statistics (Vol. I & II), The World Press, Kolkata

## **Paper MH 7: Sales Organisation and Management (100 Marks)**

1. **Sales Organisation:** Necessity of Sales Organisation – Steps involved in setting up a Structure – Factors determining Sales Organisation Structure – Centralized and Decentralized Organisation – Schemes for dividing Line Authority in the Sales Organisation. (10 Lectures)
2. **Designing the Sales Forces:** Sales Forces: Objectives and Strategies – Sales Forces Structure – Sales-job Analysis – Size of Sales Forces – Compensation of Sales Forces. (12 Lectures)
3. **Managing the Sales Forces:** Recruitment – Selection – Training and Development – Supervising Sales Representatives – Norms of Customer Call – Motivating Sales Representatives – Performance Evaluation of Sales Representatives. (11 Lectures)
4. **Personal Selling & Direct Marketing:** Nature of Personal Selling – Role of the Sales Force – Steps in the selling process – Personal Selling and Customer Relationship Management – Methods of approaching a customer – Presentation, Planning, Process, and Styles – Benefits and Growth of Direct marketing – New Direct Marketing Model – Integrated Direct Marketing. (15 Lectures)
5. **Salesmanship:** Essential Qualities and Functions of a Salesman – understanding buyer-behaviour and buyer-seller interactions, Product Knowledge – Customer Knowledge – Relationship Management – Effective Sales Process – Executing and Following-up of Sales Order. (12 Lectures)

***Suggested Readings:***

1. Cundiff, Still & Govoni, Sales Management, PHI, New Delhi
2. Smith, R., Sales Management, PHI, New Delhi
3. Kotler, Philip, Marketing Management, Prentice Hall, New Delhi

**Paper MH 8: Micro and Macro Economics (100 Marks)**

**University Examination: 90 marks**

[Long Answer type questions: 30 Marks (Max. 15 Marks in each question); Semi-long Answer type questions: 40 Marks (Max. 08 Marks in each question); Short Answer type questions: 20 Marks (Max. 04 Marks in each question)]

***Internal Assessment: 10 Marks***

**Group A: Micro Economics (50 Marks)**

***(Long, Semi-long and Short answer type questions should carry 45 marks preferably in the ratio of 3:4:2)***

1. **Introduction:** Economics - Definition & scope; micro & macro economics; wants, scarcity, choice, efficiency & welfare; concepts of equilibrium, - statics, dynamics, comparative statics and stability of equilibrium; micro foundation of macro economics. (04 L)

2. **Demand & Supply Analysis:** Concept of demand functions; determination of individual and market demand; shifting of demand curves; various types of elasticity; factors affecting demand elasticity; supply - determining factors & elasticity; determination of equilibrium price. (09 L)
3. **Consumer Behaviour:** Law of diminishing marginal utility and Marshallian equilibrium; ordinal & cardinal utility approach; concept of Indifference curve and budget line; consumer equilibrium under ordinal utility approach; price effect - substitution effect & income effect; inferior & giffen commodity; price consumption curve & income consumption curve. Backward bending labour supply curve. (11 L)
4. **Production & Producer Behaviour:** Concept of production function; law of variable proportion; relation between total product, average product and marginal product; concept of isoquant curve and isocost line; producer equilibrium; expansion path; returns to scale. (05 L)
5. **Theories of Cost:** Short & long run cost; total cost - fixed & variable cost; marginal cost; opportunity cost; average variable cost curve, average fixed cost curve, marginal cost curve and average cost curve; long run cost curves. (09 L)
6. **Markets & Revenue:** Features of markets - perfect competition, monopoly, oligopoly, monopolistic competition; revenue concepts

- total, average and marginal revenue; relation between MR, AR & elasticity; revenue curves under different markets. (04 L)

7. **Market Equilibrium:** Perfect competition - short and long run equilibrium (firm and industry); supply curve; break even & shut down points; Monopoly - short and long run equilibrium; non existence of supply curve. (08 L)

### **Group-B: Macro Economics (50 Marks)**

*(Long, Semi-long and Short answer type questions should carry 45 marks preferably in the ratio of 3:4:2)*

1. **National Income:** Definition; concept - GDP, GNP, NNP, NI, DI; GDP deflator; methods of measurement; problems of measurement; national income as an index of growth and welfare; circular flow of income; national income identity. (08 L)
2. **Money:** Definition, types, features and functions; demand and supply of money; credit creation; money multiplier; Keynesian liquidity preference theory. (08 L)
3. **Determination of National Income:** Keynesian consumption function; savings function; investment function; accelerator principle; saving-investment identity; simple Keynesian equilibrium; investment multiplier; paradox of thrift; IS and LM curves; determination of equilibrium national income (closed economy with government) under IS-LM model; liquidity trap;

comparative static analysis of equilibrium national income and various policy implications. (20 L)

4. **Theories of Inflation:** Concept; quantity theory of money; demand pull and cost push factors of inflation; inflation controlling measures. (08 L)
5. **Business Cycle:** Phases of business cycle; Theories of business cycle; fiscal and monetary policies to counter business cycle. (06 L)
